OSCP+ and CEHv13 Master certified · +91-7011467770 · khanamaan827@gmail.com · [LinkedIn](#) · [HackTheBox notamaan.xyz](#)

Castleroy, Limerick, Ireland

CYBERSECURITY ENGINEER

Cybersecurity Engineer specializing in Penetration Testing and Offensive Security with proven expertise in advanced cybersecurity tools, cloud platform security, and Python automation. Experienced in comprehensive vulnerability management, GRC frameworks, and Attack Surface Management across enterprise environments. **OSCP+ and CEH v13 Master certified**, with demonstrated proficiency in Red Teaming operations, manual penetration testing, Active Directory exploitation, and modern web application security assessment.

KEY COMPETENCIES

Cybersecurity Tools	Cloud & DevOps	Programming & Scripting	Soft Skills
- Kali Linux - Burp Suite - Red Teaming tools - Qualys, Snyk, Invicti	- AWS - Azure - CI/CD Pipelines - Automation & Integration	- Python - Bash - PowerShell - PHP	- Communication - Team Collaboration - Problem Solving

PROFESSIONAL EXPERIENCE

National Australia Bank (NAB)

August 2024 - August 2025

Cybersecurity Engineer - Attack Surface Management

- Led end-to-end deliverables such as DNS hygiene monitoring and asset lifecycle management, reducing DNS hygiene issues from 68% to 22%.
- Integrated cloud platforms like AWS and Azure with ASM tools, streamlining workflows.
- Automated attack surface management processes using custom python scripts to identify externally exposed dev environments and over 200 inactive assets contributing to improved security posture.

National Australia Bank (NAB)

May 2023 - July 2024

Full Time Cybersecurity Intern - Vulnerability Management

- Managed internal vulnerabilities, collaborating with stakeholders for remediation.
- Worked on Governance, Risk, and Compliance (GRC) tasks, including policy creation and enforcement via Qualys.
- Assisted in monitoring and tracking vulnerabilities through automated tools to ensure swift resolutions.

Safe Security

June 2022 - September 2022

Cybersecurity Intern

- Participated in various cybersecurity tasks, focusing on threat hunting, vulnerability assessments, and risk management.
- Developed familiarity with various vulnerability management tools and methodologies.

EDUCATION & CERTIFICATIONS

MEng in Cyber Security, University of Limerick
(Sep 2025 - Present)

B.Tech in Computer Science, Bennett University
(2020-2024)

Graduated with a CGPA of **9.45** in Computer Science Engineering.

OSCP and OSCP+

Certified Network Defender (CND)

CompTIA Security+

Certified Ethical Hacker Master (CEH v13 Master)

PROJECTS & CHALLENGES

HackTheBox

Solved over 55 machines and completed 100+ CTF challenges with detailed writeups.

CTF Challenges

Regular participant in Capture The Flag challenges across various platforms, sharpening offensive security skills.

Data Analysis Project

Analyzed my browser history as part of a data analysis project and drew meaningful conclusions
